To whom it may concern

Testimonial – HMS Assurance

HMS Assurance was contracted by Youth Division, Ministry of Culture, Community and Youth, to provide audit services for the *SCAPE Construction Project from Dec 2013 to May 2014 through an Invitation to Quote.

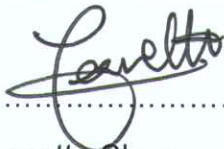

The audit services provided by the firm were professional and timely. They remained committed to the project and completed it with due diligence.

The Firm adapted well to changes in the project parameters and managed issues with sound technical knowledge. The coordination and administration of the project was very systematic, and enabled us to support the progression of the project.

It has been a pleasant experience working with HMS Assurance, and we appreciate the firm's effort in providing their services for this audit.

We would like to wish them the best in their future endeavours!

With Best Regards,

.....
Jeanette Chen
Manager, Youth Division
